## EXCERPT:

Watch for an important new book, "Secrets, Spies and Scholars -- Blueprint of the Essential CIA," due in stores in a few days. It's by Ray Cline, who has held top jobs in CIA, OSS and at State, and could well become Carter's Director of Central Intelligence.

Cline's book lays out the history of American Intelligence, the errors of recent years, all within a highly readable account of what makes the nation's secret agencies function & malfunction.

Cline worked for, and often tangled with, Henry Kissinger. He carried the ball against Kissinger's "Lone Ranger" methods -- methods Carter has vowed won't be applied during his Presidency.
